

Amendment to license renewal application BR901115UF for radio station WSJR (AM) in Madawaska, ME.

As per the request for information in F.C.C. letter, 8900-LJY, dated March 1, 1991.

WSJR is making every possible effort to comply with 47C.F.R., Section 1.1307 as outlined in our answer to question number 7 and the related exhibit. (See attached copy.)

In addition to the steps outlined there, we have now constructed an additional fence, 3 meters from the base of our transmission tower, which fully encircles our antenna site.

Also, please note that there are no other broadcast facilities located within a mile in any direction from our antenna site.

WSJR is a 1000 watt AM radio station.  
This amendment was prepared by Thomas B. Beardsley on March 5, 1991 following telephone consultation with Mr. William Hassinger of the F.C.C. by our engineer Aurel Daigle.

Exhibit Number 3

The transmitter/Antenna site for USIR is located in a remote area that is rarely, if ever travelled by the public. Much of the year it is accessible only by snowshoe. There are no residences or commercial buildings near it and it is clearly marked by three no-trespassing signs and eight RF Radiation warning signs. The base of the tower is completely fenced in by an eight-foot high fence, the entrance of which is padlocked.

All routine maintenance at the transmitter and antenna site is done between the hours of twelve midnight and six a.m., when USIR is not in operation.

The STL transmit antenna for USIR is located on a tower mounted on the peak of the roof of a two story building. A ladder is required for access to the roof. All maintenance on the tower and antenna is done when the STL is not in operation. The rooftop itself is not accessible by the general public and the three sides of the tower are labeled with RF Radiation warning signs.

Exhibit 3 pertains to question 7 and was prepared by Thomas B. Beardsley on October 21, 1990.

### FILING INSTRUCTIONS

Broadcast station licensees are required to afford equal opportunity to all qualified persons and to refrain from discriminating in employment and related benefits on the basis of race, color, national origin, and sex. See Section 73.2080 of the Commission's Rules. Pursuant to these requirements, a license renewal applicant who employs five or more full-time station employees must file a report of its activities to ensure equal employment opportunity for women and minority groups (that is, Blacks not of Hispanic origin, Asians or Pacific Islanders, American Indians or Alaskan Natives, and Hispanics). If minority group representation in the available labor force is less than five percent (in the aggregate), equal employment opportunity (EEO) program information for minority group members need not be filed. However, EEO program information must be filed for women since they comprise a significant percentage of virtually all area labor forces. If an applicant employs fewer than five full-time employees, no equal employment opportunity activity information need be filed.

A copy of this report must be kept in the station's public file. These actions are required to obtain license renewal. Failure to meet these requirements may result in license renewal being delayed or denied. These requirements are contained in Section 73.2080 of the FCC Rules (47 CFR 73.2080), and are authorized by the Communications Act of 1934, as amended.

☒ If your station employs fewer than five full-time employees, check the box at left, complete the certification below, return the form to the FCC, and place a copy in your station's public file. You do not have to complete the rest of the form.

If your station employs five or more full-time employees, you must complete all of this form and follow all instructions.

☐ If minority group representation in the available labor force is less than 5 percent (in the aggregate) and you choose not to file EEO program information for minority groups, check the box at left and complete the rest of this form with only the information for your program directed towards women.

The purpose of this document is to remind broadcast station licensees of their equal employment opportunity responsibilities and to provide the licensee, the FCC and the public with information about whether the station is meeting these requirements.

## GENERAL POLICY

A broadcast station must provide equal employment opportunity to all qualified individuals without regard to their race, color, religion, national origin or sex in all personnel actions including recruitment, evaluation, selection, promotion, compensation, training and termination.

A broadcast station must also encourage applications from qualified minorities and women for hiring and promotion to all types of jobs at the station.

## I. RESPONSIBILITY FOR IMPLEMENTATION

A broadcast station must assign a particular official overall responsibility for equal employment opportunity at the station. That official's name and title are:

NAME \_\_\_\_\_ TITLE \_\_\_\_\_

It is also the responsibility of all persons at a broadcast station making employment decisions with respect to recruitment, evaluation, selection, promotion, compensation, training and termination of employees to ensure that no person is discriminated against in employment because of race, color, religion, national origin or sex.

## POLICY DISSEMINATION

A broadcast station must make effective efforts to make management, staff, and prospective employees aware that it offers equal employment opportunity. The Commission considers the efforts listed below to be generally effective. Indicate each practice that your station follows. You also may list any other efforts that you have undertaken.

- ☐ Notices are posted informing applicants and employees that the station is an Equal Opportunity Employer and that they have the right to notify an appropriate local, State, or Federal agency if they believe they have been the victims of discrimination.
- ☐ Our station's employment application form contains a notice informing prospective employees that discrimination because of race, color, religion, national origin or sex is prohibited and that they may notify the appropriate local, State, or Federal agency if they believe they have been the victims of discrimination.
- ☐ We seek the cooperation of the unions represented at the station to help implement our EEO program and all union contracts contain a nondiscrimination clause.
- ☐ Other (specify) \_\_\_\_\_

## III. RECRUITMENT

A broadcast station must make efforts to attract qualified minority and women applicants for all types of jobs at the station whenever vacancies occur.

Indicate each practice that your station follows and, where appropriate, list sources and numbers of referrals.

- ☐ When we place employment advertisements with media some of such advertisements are placed with media which have significant circulation or viewership, or are of particular interest to minorities and women in the recruitment area. Examples of media utilized during the past 12 months and the number of minority and/or women referrals are:

	Number of Referrals	
	Minority	Women
_____	_____	_____
_____	_____	_____

Examples of such jurisdiction may include the Equal Employment Opportunity Commission, state and local equal opportunity commissions, or other appropriate agencies.

#### VIII. OTHER INFORMATION

You may also describe other information that you believe would allow the FCC to evaluate more completely your efforts in providing equal opportunity in employment at your station. Submission of such information is optional. Among the additional information you may choose to provide are:

**NOTICE TO ASSIGNEE**

Enclosed is FCC Form 732 notifying you of Commission consent to the assignment of the construction permit and/or license of the station(s) therein described. Voluntary assignments are required to be completed within sixty (60) days of the date granted.

In addition to the filing of the below mentioned FCC Form 323, you are required to immediately notify this office (8910), by letter, as to the exact date of the consummation; that is, the date on which the acts necessary to effect the assignment were completed.

Within thirty (30) days after the consummation of the assignment it will be necessary for you to submit an Ownership Report (FCC Form 323) reporting all changes as required by Section 73.3615 of the Rules. Where applicable, a separate Ownership Report should also be completed and submitted for any holding company (25% or greater ownership interest) of the licensee/permittee. Contractual information required by Section 73.3613 should be reported for the assignee in Item 6, page one of the Ownership Report and copies of each instrument should be submitted with the report. If this is an involuntary assignment that was the result of a death or court action, an Ownership Report must be filed to determine that all requirements of the Rules have been met and reported.

In the event the assignee is the licensee/permittee of another station and has a current Ownership Report on file, you may complete and file only page one of FCC Form 323 to reflect the acquisition of the station(s) listed above. FCC Form 323 is enclosed for your convenience in filing.

It is of the utmost importance that all Commission correspondence comes to the immediate attention of the permittee or licensee. Only one mailing address can be maintained for each station. Unless we hear from you to the contrary, the above address will be used as your permanent mailing address.

If the assignor has any applications pending before the Commission, these applications must be amended to reflect the name of the assignee. Upon consummation of the assignment, amendments to each application must be filed by the assignee, in triplicate, signed by the proper party (see Section 73.3513 of the Rules). Further processing of these applications will be withheld pending receipt of the amendment.
